***bigffc0.out	0	any	f	Y / N->BGE
***bigfc-1.out	-1	any	any	Y / N->BGE

any – the parameter should be not used in this mode of operation, so the value is irrelevant.

*** No file created. The buffer cannot be created. The following message must be displayed:

PLATYBT.EXE: Could not create buffer.

BGE – Big Giant Error, SVE – Spec Violation Error, ASI – Acceptable Spec Implementation
